

Model 650

Model 650 works with all Standard Pneumatic wire wrapping tools.

Cutting and Stripping Attachment:
Order stripping blades separately from attachment to suit wire size.

Stripping Blades

Wire Size	Part Number
20 AWG	64520
22 AWG	64522
24 AWG	64524
26 AWG	64526
28 AWG	64528
30 AWG	64530
22-24 AWG	64533

Designed For: The Model 650 is designed to be attached to our 6021, 6071, 620 and 6001, plus any of the models in between. The Model 650 allows the operator to cut to length and strip the wire in one simple operation. The length of the wire to be cut is adjustable. Different gauge stripping blades can be interchanged quickly and easily. Model 654 is a modified version of Model 650, except that Model 654 only cuts the wire. Model 654 is generally used by operators who are using C. S. & W. and need only to cut the wire; it does not strip the wire.

WARRANTY AND REPAIR SERVICE

Standard Pneumatic and Electric Tool Company warrants its products to be free of defects in material and workmanship for a period of 90 days from date of shipment. Standard Pneumatic agrees to repair or replace at no charge (transportation costs not included) any part or product which proves to be defective. This warranty is void if the product has been misused or if it has been repaired by anyone other than an authorized Standard Pneumatic representative.

Standard Pneumatic and many of its distributors maintain a complete stock of replacement parts and a qualified repair department for prompt dependable service. Cost estimates for repairs will gladly be given at no obligation.
